PROFILE

AI Robotics Engineer, delivering cutting-edge solutions to turn your challenges into lasting success

KEY SKILLS

- **AI** : Python, OpenCV, PyTorch, AWS, Hugging Face, LangChain, LLMs, VLMs, VLAs, NLP
- **Robotics** : ROS2, C++, Gazebo, Linux, Docker, Matlab, Simulink, Kalman, SLAM, PID
- **Hardware** : STM32, NVIDIA Jetson, Raspberry Pi, LiDAR, IMU, Cameras

PROFESSIONAL EXPERIENCE

CHANTIERCLAIR

Montréal, Canada (Remote)

AI Founding Engineer

2026

- Engineered a **RAG-based AI** platform that transforms unstructured facility management documents into Standard Operating Procedures (SOPs), improving operational consistency and knowledge accessibility.
- Automated end-to-end video creation **pipeline** by deploying **AI agents**, transforming simple ideas into fully generated videos, significantly reducing production time and costs.

UPWORK

Dublin, Ireland (Remote)

AI & Robotics Solutions Creator

2025

- Architected a novel autonomous **drone landing system** on moving vehicles, leveraging robust engineering and **physics-informed AI** to enable **navigation** in complex **real-world conditions**.
- Launched a next-generation **AI-driven rental platform** with **semantic search**, enabling intent-based item discovery, reducing friction in the search process, and adapting to evolving user behavior.

ACCENTURE

Paris, France

Physical AI & Robotics Consultant

2023 – 2024

- Led the design of a cutting-edge **pick & place robotic solution**, integrating a **collaborative robot**, its **digital twin**, and advanced **planning algorithms** to optimize operational efficiency.
- Delivered **high-impact demonstrations** of **Physical AI** applications in **Industry X.0**, advancing technological transformation and driving **strategic partnerships** for Accenture.

UAVIA X PARROT

Vitry-Sur-Seine, France

AI Robotics Software Engineer

2022

- Enhanced **drone navigation** and **perception** by advancing **3D environment reconstruction** and **obstacle avoidance**, incorporating innovations from Parrot's technologies.
- Collaborated with research teams to integrate new **Physical AI** techniques, optimizing **drone performance** and **decision-making** in complex environments.

EDUCATION

ARTS ET MÉTIERS, THE GRANDE ECOLE OF TECHNOLOGY

Paris, France

Master Degree in Advanced Systems and Robotics

2022

UNIVERSITY OF BURGUNDY

Dijon, France

Master Degree in Electronics, Signal, and Image Processing

2021
